

精密熱風烤箱 HOT-AIR OVEN

SFB-7A-HOC, 采用垂直送風循環加熱送風方式, 讓溫度更加均勻, 同時精密的日本數位型溫度器, 自動演算搭配SSR溫控系统, 加裝999分計時器, 使溫度均勻度保持在設定值的 $\pm 1.5\%$; 擁有人性化超溫警報系統設計等多項革新技術, 備受高端用戶的青睞。

Features

- 1、 Designs novel, uses the high-quality steel plate baking varnish, the guarantee roasting effect and stable
- 2、 Several temperature controllers, the high accuracy PID automatic calculation, match SSR contact surface
- 3、 The vertical blast circulation regeneration, the temperature is more rapid, even also life longer
- 4、 The precise double ultra warm protection, the ultra warm time sound warning reminds
- 5、 The full consideration user friendly operation, enhances the production efficiency, reduces the man-hour to waste

: Specifications

Model	SFB-7A	SFB-8A	SFB-8A2W
Power	AC 220V 1 Φ 50/60Hz 25A		
(W*D*H) Internal dimension	1320*820*1250, 1320*1020*1250, 820*700*1520		
(W*D*H) External dimension	2010*1020*2070, 2100*1260*2250, 2700*940*2160		
Uniformity	$\pm 1.5^{\circ}\text{C}, 75^{\circ}\text{C}$ (Loaded),		$\pm 2^{\circ}\text{C}, 150^{\circ}\text{C}$
	$\pm 1.5^{\circ}\text{C}, 75^{\circ}\text{C}$ (Loaded),		$\pm 1.5^{\circ}\text{C}, 150^{\circ}\text{C}$
Air circulation	Vertical air flow,		Horizontal air flow,
Weight	1300kg	1350kg	1450kg
